(54) Title: **MULTI-FUNCTIONAL CABLE AND FISHING EQUIPMENT WITH VIDEO SYSTEM AND UNDERWATER IMAGE VIDEO SYSTEM USING THE SAME**

(57) **Abstract:** Disclosed is a multifunctional cable, and fishing equipment and underwater image video system using the same. The multifunctional cable according to the present invention comprising electric cords, a image signal cord and one or more control cords to transfer signals of sounds, supersonic waves, temperature information or control orders with individual inner coats, and exterior of these cords are molded or filled with flexible and durable molding resin or fibers, and the outer surface of the cable is covered with an abrasion resistant coat. On the other hands, the fishing equipments with video system and underwater image video systems according to the present invention and the devices of the photographing part under the water and external device part out of the water are connected with each other using said multifunctional cable.
